UNIVERSITÀ
DEGLI STUDI DI MILANO-BICOCCA

COURSE SYLLABUS

Educare alla sostenibilità: economia, risorse e popolazione nel lungo periodo

2324-A46-FIA46011

Title

Educating for Sustainability: economy, natural resources, and population in the long run

Teacher(s)

Giulio Ongaro

Language

Italian

Short description

The cours aims at showing laboratories of active learning for adolescent students focused on the relationship between demographic dynamics and natural resources in the long ruan, and the relevance and use of some natural resources in the history of humanity. It will show that starting from various types of primary sources it is possible to create educational courses and laboratory activities aimed at transmitting to the students the complexity of the concept of sustainability and the problems related to the exploitation of natural resources, especially in terms of access to them and of the environmental and economic consequences of their management.

CFU / Hours

2 CFU/12 hours

Teaching period

September 2024

Sustainable Development Goals

QUALITY EDUCATION | CLEAN WATER AND SANITATION | AFFORDABLE AND CLEAN ENERGY | RESPONSIBLE CONSUMPTION AND PRODUCTION | CLIMATE ACTION
