COURSE SYLLABUS

Laboratory 5

2223-3-E3901N061

Learning objectives

The system of personal services is undergoing continuous changes, including modifications at regulatory levels, which change its institutional structures, operational processes and consequently professional roles.

The educational objective pursued by this Laboratory is to investigate practical cases, through an updated reading of the national and regional regulatory framework, paying attention to the key legislative elements and carrying out a critical reading of the regulatory framework

Contents

Legislation regarding personal services

practical cases relating to the planning and management of social and socio-sanitary services (regional plan, accreditation, tender .....).

Detailed program

The laboratory will be subdivided in two phases.

During the first phase a short "overview" of the legislation regarding the personal services, with attention to the latest legislation (for this academic year particular attention will be put on the new esencial assistance levels (LEA) and on the reform of the social sector) will be introduced.

In the second part various practical cases regarding planning and management of social and socio-sanitary

services (regional plan, acceditation, tender....) will be proposed.

Prerequisites

Sufficient educational skills in logic, social culture and reasonable capacities in learning, writing and communication.

Teaching methods

The laboartory will take place through the involvement of the students in the simulation of practical cases; relative educational material, normatives as well as functional material regardinn the cases dealt with during the simulation (models, schemes, examples, cases, etc....) will be provided.

Assessment methods

The workshop will end with an "approved" or "not approved" rating and wil be based on the active participation during the training course.
