SYLLABUS DEL CORSO

Linguaggio della geo-graficità (cartografia e sistemi informativi geografici); coordinate spazio temporali

2526-A12-FIA12009

Title

Language of geography (cartography and geographic information systems); spatial-temporal coordinates

Teacher(s)

Enrico Squarcina (enrico.squarcina@unimib.it)

Language

Italian

Short description

The course aims to provide a critical introduction to cartographic language, electronic cartography and other forms of spatial representation that can be used in teaching. It also aims to make students aware of the importance of developing spatial awareness and language in learners so that they can act consciously in society.
