

UNIVERSITÀ
DEGLI STUDI DI MILANO-BICOCCA

SYLLABUS DEL CORSO

Biochemistry

1718-1-H4102D008-H4102D023M

Aims

To bring the students to the basic knowledge of biochemical methods, by using an “on field” approach in laboratory, under the supervision of an expert staff.

Contents

Deepening of biochemical techniques

Detailed program

- Protein assay.

- Cell culture.

Blood sugar level

Prerequisites

To attend to the Biochemistry class

Teaching form

Taught class, laboratory tours, practical exercises

Textbook and teaching resource

Textbook of biochemistry with clinical correlations, TM Devlin

Semester

2 semester

Assessment method

Evaluations during the final exam of "Biochemistry"

Office hours
