SYLLABUS DEL CORSO

Patologia Renale Non Neoplastica in Oncologia

1718-4-H4101D298

Aims

This three-day course will give an updated overview on the more significant topics in renal pathology in oncology.

The course will be articulated through frontal lectures and complementary slide seminars via interactive digital pathology (virtual slides). This course

will make an emphasis on morphology and the use of ancillary studies as well as molecular approaches like proteomics, genetics and immunohistochemistry.

Contents

Glomerulonephritis in oncology.

Detailed program

The course will show the WHO classification and literature updating about the newest dilemmas in nephropathology.

Prerequisites

Nephrology, Oncology, Surgical Pathology

Teaching form

Lessons, microscopy sessions.

Textbook and teaching resource

AFIP, Non neoplastic kidney diseases

Semester**Assessment method**

Interactive verification at the course conclusion

Office hours
