# COURSE SYLLABUS

## Le Pneumopatie Infiltrative Diffuse

**1819-3-H4101D090**

### Aims

Improvement of the knowledge on DILD

Bronchoscopic procedures

BAL cytological analysis

Open lung biopsy microscopic analysis

High resolution CT (HRCT) analysis

### Contents

Clinical-radiological and functional characteristics of DILD

### Detailed program

Educational program: DILD classification, diagnostic criteria, diagnostic procedures (HRCT, bronchoalveolar lavage, transbronchial biopsy, open lung biopsy), clinical cases, practical activity on HRCT, BAL slides, histological slides.

## Prerequisites

3th year Medical Student and over

## Teaching form

Lectures, practical activity in bronchoscopy room, microscope analysis on BAL and histological slides

## Textbook and teaching resource

Pneumopatie Infiltrative Diffuse (Clinica, Anatomia patologica, HRCT), M Maffessanti et al, Springer-Verlag Italia, Milano – ISBN 88-470-0274-5

## Semester

## Assessment method

## Office hours
