SYLLABUS DEL CORSO

Ordinamento Bancario Globale

1920-3-E3301M207

Learning objectives

The lectures aim to offer basic legal knowledge regarding actual bank regulation and supervision issues (on national, international and EU-level).

Contents

Analysis of domestic, EU- and international rules governing the [banking](#) system in Italy and in EU a countries.

Detailed program

The lectures discuss [banking](#) law in order to analyse the bank regulations which aim, both at national, international and EU- level, to safeguard the public interest in the field. Given that most bank regulations at national and EU-level aim today to confront the effects of the economic and financial crisis, the latter topic will be analysed and discussed throughout the lectures and, if possible, in seminars.
