SYLLABUS DEL CORSO

Neuroradiologia

1920-2-I0201D110-I0201D023M

Aims

Contents

At the end of the course the student will be able to Knowing the limits and specific applications of research techniques in the neurologic field Diagnostic tools such as imaging and their application will be presented (physics of radiation, bioengineering, imaging), the most recent techniques of functional imaging will be presented.

Detailed program

Prerequisites

Teaching form

Lectures

Textbook and teaching resource

Semester

1st semester

Assessment method

Multiple choice test comprising 5 questions with only one correct answer

Open questions

Oral test (optional, on evaluation of the teacher)

Office hours

By appointment
