SYLLABUS DEL CORSO

Valutazione e Recupero della Neurolesione

1920-2-I0201D109-I0201D130M

Aims

Contents

After completing this course the student will be able to assess the person with disabilities derived from lesion of the nervous system and be able to perform evaluation tests and techniques for functional recovery that are consistent with the rehabilitation of the person. Moreover the recent available technologies will be presented. The course aims at developing the students' understanding of the approach to treatment of the person affected by neural lesion and the use of assistive devices and prostheses for injuries to the nervous system. The course aims to thoroughly prepare the student to address the neuromotor physiotherapy treatment of these syndromes in terms of technical/professional and relational skills, using all the instruments for an objective assessment, in order to integrate the various therapeutic approaches in the field of physical therapy in congenital or acquired neural lesions, with particular reference to the EBP and clinical settings, care and the needs of the person (ICF).

Detailed program
