

## SYLLABUS DEL CORSO

### Cinesiologia 2

1920-1-I0201D129-I0201D187M

---

#### Aims

At the end of the course the student should : -

know the basic principles and application of the kinesiologic assessment.  
- know the assessment of postures and implication of postures on the  
musculature. - know and analyze passages between postures

#### Contents

#### Detailed program

- differences between posture and position and  
general scheme for the kinesiologic assessment in every position. -  
standing posture - derived posture from standing and how to reach them:  
movement of the spine, side lying, sitting posture, posture on knees,  
intermediate posture, hand and knees posture. - passages between  
postures: - climbing stairs - raising and lowering objects

#### Prerequisites

## **Teaching form**

Lectures and lab

## **Textbook and teaching resource**

\* Boccardi S. Lissoni A., Cinesiologia (vol. 3), Società Editrice Universo, 1990 \* Boccardi S. Lissoni A., Cinesiologia (vol. 1), Società Editrice Universo, 1990 \* Le Veau BF, Biomeccanica del movimento umano, Ed. Verdaci, 1993 \* Occhi E., Cinesiologia IV, Società Editrice Universo, 2000 \* Cavagna G., Aspetti di biomeccanica, Ed. Cortina \* Vandervael F., Analyse des mouvements du corps humain, Ed. Desoer, 1966 \* Sahrmann S, Valutazione funzionale e trattamento delle sindromi da disfunzione del movimento, UTET, 2005 \* Neumann DA, Kinesiology of the musculoskeletal system, Mosby, 2002

## **Semester**

## **Assessment method**

Described in the subject's syllabus

## **Office hours**

By appointment
