## SYLLABUS DEL CORSO

### Neuroanatomia 2

1920-1-I0201D131-I0201D193M

---

#### Aims

The course will provide the anatomical basis to understand the functional organization of the peripheral nervous system

#### Contents

The course will provide the anatomical basis to understand the functional organization of the peripheral nervous system (somatic and autonomic)

#### Detailed program

---

Organization of the autonomic nervous system, ortosimpatic, parasimpatic

Spinal nerves: origin, ourse, innervation territories

Plexi and spinal nerves: peripheral trunks and constitution - encephalic nerves: origin, course, innervation territories.

Radiologic anatomy, topographic and clinic of the peripheral nervous system

**Prerequisites**

College-level scientific knowledge

**Teaching form**

Frontal lessons

**Textbook and teaching resource**

- A. Vercelli, Anatomia Umana Funzionale, Minerva Medica
- Martini, Anatomia Umana, Edises

**Semester**

1st term

**Assessment method**

Multiple choice written test, with the possibility to assess the level of competence by means of oral examination.

**Office hours**

Mon-Fri by appointment
