COURSE SYLLABUS

Clerkship 4

1920-3-H4102D019

Aims

the goal of clerkship is the acquisition of practical skills related to diagnostics and to the clinic and to the treatment of the musculoskeletal system

Contents

Clerkship program, with rotation in small groups (about max 10 students) in surgical specialties, general practitioner and in the emergency department:

1. PBL / CBL

- Practice sessions with puppets or among students/teachers
- Attending clinical wards

Detailed program

depending on the routine clinical activities in the hospital ward

Prerequisites

Vertical track Locomotor attendance

Teaching form

tutored clinical observation, with briefing an debriefing

Textbook and teaching resource

see the Locomotor Vertical Track

Semester

first term

Assessment method

Ongoing tests after each PBL/PCL (PBL-restitution):

- Short essay (eventually also in groups)
- Practical tests/maneuvers
- Short paper/composition in relation to problems treated with PBL/PCL
- Multiple choice tests

Final locomotor vertical track test:

- Multiple choice tests
- Practical tests/maneuvers
- Collection of the single short papers/compositions

Development of clinical skills is assessed by OSCE (Objective structured clinical examination). Each OSCE faces the student with a unique clinical case which will test particular skills such as history-taking, physical examination, practical tests/maneuvers, communication skills, test/data interpretation, medical decision-making. Each student receives feedback from the assessor as well as overall scores for each OSCE.
