Coagulation, hemophilia, thrombosis, embolism, infarct. Thalassemia. Trisomies. Diabetes. Ageing.

In the program will be expounded on specific examples related to the dental pathology.

Prerequisites

The goals of the previous courses

Teaching form

Frontal lessons, exercitations

In the period of Covid-19 emergency, lessons will be provided by mixed manner: partial presence and asynchronous/synchronous recorded lessons

Textbook and teaching resource

- Pontieri, Russo, Frati
- Patologia Generale - V ed. - Piccin
- Robbins e Cotran - Le basi patologiche delle malattie - IX ed. - Elsevier;
- Majno e Joris - Cellule, tessuti e malattia - I principi della Patologia Generale - Casa Editrice Ambrosiana;
- Abbas A.B., Lichtman A.H. Fondamenti di Immunologia. Funzioni e alterazioni del sistema immunitario. Piccin.

Semester

annual teaching at the second year of course

Assessment method

Oral examination.

In the period of Covid-19 emergency the oral examination will be telematic, using the WebEx platform.

The oral examination will be preceded by a written multiple-choice test, comprising 90 questions with only one correct answer (among 4), aimed at evaluating global comprehension of microbiology program. The text will be passed with 51 exact answers, the value of each exact answer is 0.35 point.

The oral examination consists in the discussion of the remaining part of the integrated course, aimed at verifying the student ability to make connections and provide details. The final score will be the weighted mean of the two tests
