COURSE SYLLABUS

Medicine Clerkship 1a

2021-3-H4101D259-H4101D181M

Aims

The aim of the training course in Clinical Area 1 is to offer the student the possibility to learn, at patient's bedside, how to professionally interact with them, how to correctly collect the patient's medical history data and how to properly perform a physical examination. This training period aims at guiding the students through the different phases of the diagnostic/therapeutic process in the different areas of internal medicine. The training program is performed with the help of tutor, who will guide the students through the steps of this process.

Contents

To carry out a medica investigation, to make a critical argument as regards the laboratory tests, to apply the dialogue skills with the patients while taking a medical hystory, to learn how to estabilish a good relationship with the patient, to learn how to perform an accurate physical examination, to learn how to comply with criteria of professional deontology.
