## SYLLABUS DEL CORSO

### Psicologia Sociale dei Gruppi

2021-2-E2401P118

---

#### Learning area

Knowledge and skills useful to understand and change the relations among individuals; psychosocial processes underlying groups, organizations and social systems.

#### Learning objectives

*Knowledge and understanding*

Theories and methods in intergroup relations

-----

-----

*Applying knowledge and understanding*

-----

-----

#### Contents

The purpose of the course is to develop an understanding of stereotyping, prejudice, and \_\_\_\_\_

## **Detailed program**

- Stereotyping: automatic and controlled components
- Prejudice: cognitive and motivational components
- Contemporary forms of prejudice: aversive, ambivalent, and subtle prejudice
- Racial Bias, Sexual prejudice, and Sexism
- Measuring prejudice: explicit and implicit techniques
- Reducing intergroup conflict: direct and indirect contact; strategies based on categorization

## **Prerequisites**

None in particular. However, a good knowledge of the foundations of social psychology enables a more informed understanding of the course contents.

## **Teaching methods**

Teaching methods include the use of lectures, films, discussions and practical exercises. All course materials will be available on the e-learning platform.

\_\_\_\_\_

## **Assessment methods**

Oral test. Questions are aimed at assessing the effective acquisition of both theoretical knowledge and methodological skills. The answers to each question will be evaluated in terms of correctness of the answers, argumentative capacity, synthesis, ability to form links among the different areas, and the ability to critically present the phenomena.

\_\_\_\_\_
