- Laboratory experiences, 2 credits - 20 hours

For the duration of the Covid-19 emergency period, the lecture classes will take place remotely.

Textbook and teaching resource

Didactic material provided by the teacher and available on UNIMIB elearning website

Semester

second semester

Assessment method

The student must prepare a written report on a topic chosen by him/her, concerning the topics dealt with during the course, which is then discussed with the teacher on the day of the oral exam.

The object of the evaluation will be to verify that the theses and topics covered have a logical filum that starts from the objectives and ends with the conclusions. The oral test will focus mainly on the presentation of the report and the verification of knowledge of the issues dealt with during the course.

During the Covid-19 emergency period, oral exams will only be online, using the WebEx platform. The e-Learning page of the course will contain a public link to allow the potential audience to witness the exam.
