## SYLLABUS DEL CORSO

### Astrophysics of Gravitational Waves

2122-1-F5802Q008

---

#### Aims

Acquire basic knowledge in the field of gravitational waves, which have recently been confirmed as an extraordinary tool for understanding the universe and the objects that populate it.

-----  
-----  
-----

#### Contents

-----  
-----  
-----

#### Detailed program

##### 1- Theory of gravitational wave emission

-----  
-----

##### 2- Gravitational wave signals from binary systems

-----  
-----  
-----

---

## 2-gravitational wave signals from binaries

Michele Maggiore: "Gravitational Waves". Book 2, 2018

---

---

## Semester

Second semester

## Assessment method

Oral examination. The student will first be asked to elaborate on a topic of his choice for about 15-20 minutes. In the rest of the exam, the lecturer will ask other questions covering any of the topics treated during class.

There will be no intermediate examinations nor marked homework.

## Office hours
