UNIVERSITÀ
DEGLI STUDI DI MILANO-BICOCCA

COURSE SYLLABUS

Diagnostics

2122-4-H4102D028-H4102D104M

Aims

To provide the basic knowledge of the spectrum of neuroradiological techniques, correct indications for their prescription and basci knolwedge for interpreting the results

Contents

Neuroradiology and imaging of normal brain and neurological disorders.

Detailed program

- Neuroradiological techniques

- Neuroradiological anatomy

- Neuroradiology of vascular diseases of the brain and spine

- Neuroradiology of neoplastic diseases of the brain

- Neuroradiology of infectious diseases

- Neuroradiology od neurodegenerative diseases

Prerequisites

Basic knowledge of neuroanatomy

Teaching form

Frontal lessons with discussion of clinical cases

Textbook and teaching resource

Diagnostic Imaging: Brain Jhaveri, Miral D. et al, Elsevier Science Health Science; 4° ed, 2020

Semester

second semester

Assessment method

Office hours

by email appointment
