COURSE SYLLABUS

Clerkship in Child Neuropsychiatry

2122-5-H4101D179

Aims

Give the student an idea of ??the work in the children's neuropsychiatry clinic

Contents

Participation in some clinical activities and in the discussion of the clinical cases presented

Detailed program

The elective internship consists of an activity carried out at the neuropsychiatry clinic, or at outpatient facilities in which the student will work alongside the tutor during his working day

Prerequisites

Students must be enrolled in the 5th year of the School of Medicine and Surgery

Teaching form

The activity will be in presence, subject to any ministerial changes following the COVID pandemic situation

Textbook and teaching resource

The teaching resourse will be indicated during the internship

Semester

Whole year, by agreement between the student and the tutor

Assessment method

Interactive verification in order to ensure the learning of the take-home messages.

Office hours

By appointment
