COURSE SYLLABUS

Canon Law

2122-3-A5810029

Learning objectives

The course aims to teach the main institutions of Canon Law.

Contents

Canon Law is the body of Catholic Church's laws and regulations. Church's law have been fundamental to the development of both the common law and the civil law traditions (especially in the field of marriage and family law, as well as in criminal law, trusts, contract and public law), and up to now this religious legal system discipline the life of Catholics in all the world. Canon is derived from the Greek kanon, i.e. a rule of practical direction. The course will give an overview on those rules (in particular: theory of sources and interpretation; constitutional law; marriage) and would to stimulate to reflect on this idea of law expressed in Gospel: «The Sabbath was made for man, not man for the Sabbath. So the Son of Man is Lord even of the Sabbath» (Mark, 2,27).

Detailed program

Canon Law is the body of Catholic Church's laws and regulations. Church's law have been fundamental to the development of both the common law and the civil law traditions (especially in the field of marriage and family law, as well as in criminal law, trusts, contract and public law), and up to now this religious legal system discipline the life of Catholics in all the world. Canon is derived from the Greek kanon, i.e. a rule of practical direction. The course will give an overview on those rules (in particular: theory of sources and interpretation; constitutional law; marriage) and would to stimulate to reflect on this idea of law expressed in Gospel: «The Sabbath was made for man, not man for the Sabbath. So the Son of Man is Lord even of the Sabbath» (Mark, 2,27).

Prerequisites

Fairly good skills in learning and speaking, together with a general knowledge of public and private law.
