DEGLI STUDI DI MILANO-BICOCCA

SYLLABUS DEL CORSO

Microeconomia - 1 (blended)

2122-1-E1801M061-E1801M088M-T1

Learning objectives

The course aims at providing students with the basic elements to _____

Contents

1. Consumers' and firms' rational behavior
2. Role of prices
3. Market structures

Detailed program

The concept of market, demand and supply functions

2. Endogenous and exogenous variable and comparative static methods
3. Modeling of rational behavior of agents, and specifically:
 - a. Utility maximization
 - b. Individual demands
4. Trade and surplus from trade

5. Production function and modeling rational production decisions

6. Forms of market organization and their role

Prerequisites

Calculus

Teaching methods

Blended Elearning with a weekly revision lecture

Assessment methods

There are two assessment methods, for attending and non attending students.

For attending students the final evaluation is the average between

1. two partial written exams each consisting of two theoretical questions and one exercise, which totally will count for 80% and
2. a on line discussion forum that will count for the remaining 20%.

The students are strongly suggested to attend the course.
