- The Self: self-regulation, motivation, and emotions
- aggressiveness
- Prosociality
- Membership and social exclusion
- The prejudice
- Social psychology in the digital age
- Environmental psychology
- Political psychology

Prerequisites

No one in particular.

Teaching methods

Teaching methods include the use of lectures, video clips, classroom discussions. All course material (e.g., slides, readings) are made available on the e-learning website of the course so that also non-attending students can use it.

Lessons will be held in presence unless further COVID-19-related restrictions are imposed.

Assessment methods

The exam consists of a written test (including multiple-choice and open-ended questions). The questions are aimed at ascertaining the effective acquisition of both theoretical knowledge and the ability to connect the different forms, spheres, and processes of social psychology. The answers to each question will be evaluated in terms of correctness of the answers, argumentative capacity, synthesis, ability to form links among the different areas, and the ability to critically present the phenomena.

For students who explicitly request it, an oral exam will also be possible.
