DEGLI STUDI DI MILANO-BICOCCA

## SYLLABUS DEL CORSO

### Metodi della Ricerca Sociale e Organizzativa

2122-1-E1601N062

---

#### Aims

The course presents an overview of the most common methods in the social research in order to develop adequate skills to read, collect and analyse quantitative and qualitative data.

#### Contents

Paradigms of social research, qualitative and quantitative approaches, review of the literature, research design, data collection and analysis.

#### Detailed program

This course is designed to help students to plan and execute the following research steps: define the research problem and the hypothesis, operationalize and develop measurement of concepts, develop an appropriate research design, analyse data and give interpretation of results.

During the lectures, students will learn the logic of the research design, sampling and data collection methods, quantitative and qualitative data analysis techniques and research report writing tips.
