---

#### Learning objectives

##### *Knowledge and understanding*

Provide basic knowledge on sources of administrative authority organization, the limitations on agency actions, —

##### *Applying knowledge and understanding*

Develop the approaches and methodologies for the analysis of administrative law

#### Contents

The objective of the administrative law course is to study the administrative procedure and the activities of public authorities. Particular attention will be dedicated to the analysis of the problems that have arisen due to the deep transformations presently taking place in administrative law. This approach will likely lead to a new structural concept of administrative law, placing emphasis on the new school of thought which combines elements of both public and private law.

Moreover, this approach will be analyzed in the context of the Italian administrative justice law in order to understand the effectiveness of citizen protection when confronted with administrative power.
