DEGLI STUDI DI MILANO-BICOCCA

## SYLLABUS DEL CORSO

### Metodologia della Ricerca Quantitativa (blended)

2122-1-E3901N078

---

#### Learning objectives

##### *Knowledge and understanding*

To teach students methods and techniques of social research that are useful in professional activities. To teach students some basic methodological skills through guided training.

##### *Applying knowledge and understanding*

To give students an orientation on the different kinds of empirical research and statistical information in the social field, and to teach them to use these in a critical and conscious manner

##### *Aims*

At the end of the course, students will be able to carry out a simple piece of quantitative research

During the Covid emergency, lectures will be delivered online, using both asynchronous and synchronous teaching methods.

#### Contents

The course is structured in 5 main modules:

1.The basics of social research

2. Research design

3. Data collection

4. Data analysis

5. Results

## **Detailed program**
