

UNIVERSITÀ DEGLI STUDI DI MILANO-BICOCCA

SYLLABUS DEL CORSO

Laboratorio Metodi e Tecniche di Intervento per la Promozione del Benessere

2122-2-F5106P023

Learning area

Experiential learning

Learning objectives

Knowledge and understanding

- Current issues in well-being promotion
- Difference between well-being promotion and maladjustment prevention.
- Specific nature of methods and instruments of well-being promotion

Applying knowledge and understanding

- Ability to perform demand analysis
- Ability to identify proper methods and techniques to specific targets
- · Ability to identify proper methods and techniques to specific objectives

Contents

The laboratory presents some techniques to be used in the domain of wellbeing promotion.

Detailed program

- · Salutogenesis and wellbeing
- Wellbeing survey
- Promoting wellbeing and its resources

Prerequisites

None in particular. The attendance at the course "Psychosocial intervention for wellbeing promotion" is recommended

Teaching methods

| The methodology used in training sessions is consistent with a maieutic approach. Each student will therefore have the opportunity to experiment in action. There will always be a sharing and a cognitive-experiential group listening and a theoretical-methodological systematization of what has been experienced. |
