## COURSE SYLLABUS

### Strategic Analysis

2122-1-F7702M032-F7702M113M

---

#### Learning objectives

At the end of this module students will acquire the core concepts and analytical tools needed to elaborate and execute firm strategies in global markets.

#### Contents

This module is organized in two parts. The first part offers an overview of firm market strategies, by providing students with advanced analytical tools needed to understand competitive strategies and corporate strategies in global markets. In the second part of the module students will be involved in the analysis and discussion of special topics that are at the core of the modern firm strategy.

#### Detailed program

1. Competitive strategies
2. Strategic behavior and competitors' profiling
3. Market analysis and firm's competences
4. Vertical integration and diversification

5. Globalization and international trade
6. International business: exportation, foreign direct investment and inter-firm alliances
7. Innovation management
8. Special Topics:
  - 8.1. Origin and performance of new ventures
  - 8.2. Competitive dynamics
  - 8.3. Firm growth: M&A and strategic alliances
  - 8.4. The digital transformation of firms
