

UNIVERSITÀ
DEGLI STUDI DI MILANO-BICOCCA

COURSE SYLLABUS

Pathways, biomarkers and new therapies in neurodegenerative disorders

2122-90R-MOD3

Title

Pathways, biomarkers and new therapies in neurodegenerative disorders

Teacher(s)

Language

Short description

To present current translational research on pathways and biomarkers for early diagnosis and new targeted therapies, the course will focus on:

molecular mechanisms of neuronal damage (protein misfolding, excitotoxicity, oxidative stress, neuroinflammation)

biomarkers in patients

new therapeutic trials based on biomarkers

CFU / Hours

1/8
