

# UNIVERSITÀ DEGLI STUDI DI MILANO-BICOCCA

### **SYLLABUS DEL CORSO**

# Writing of scientific papers

2122-DOTT-MOD25

Title		

Writing of Scientific papers

#### Teacher(s)

Marco Vanoni

University of Milano Bicocca - Department of Biotechnology and Biosciences

#### Language

**English** 

## **Short description**

The course will be programmed through lessons in presence. If necessary, online, synchronous webex lessons, will be given online. Recordings of the lessons will made available as well

- How to read a scientific paper
- The "write first-do-the-experiments-later" approach

- How to structure a scientific paper
- Hands-on and practical excercises: students will be asked to perform some tasks. By way of example, they
  will write an abstract, a cover letter or an introduction of a paper according to some specific suggestions
  and the material prepared by a few randomly selected students will be read and commented

If possible, a lecture will be given by an editor of a journal of the Nature group

**Target audience:** The proposal is addressed to students of the science and medicine area. Most examples will focus on biology, biochemistry, systems biology and related fields. The course is not recommended for students of humanities

Participants (min/max): About 10-50 students

#### **CFU / Hours**

CFU: 1

Ore: 8-10

#### **Teaching period**

15/03/22 2:30 pm - 4:30 pm

22/03/22 2:30 pm - 4:30 pm

29/03/22 2:30 pm - 4:30 pm

5/04/22 2:30 pm - 4:30 pm

12/04/22 2:30 pm - 4:30 pm
