

SYLLABUS DEL CORSO

Neurologia

2122-1-004P001017

Learning objectives

The course is aimed at providing students with basic knowledge (causes, pathogenesis, symptoms, diagnostic work up, treatment) of the main disorders of the central nervous system, which affect cognition and behaviour and are therefore of interest to clinical neuropsychologists

Contents

1. Neurodegenerative disorders of the central nervous system (dementia, movement disorders, amyotrophic lateral sclerosis)
2. Stroke
3. Epilepsy
4. Multiple sclerosis
