SYLLABUS DEL CORSO

The climatic role of atmospheric aerosol in the Arctic

2223-94R-SCGA01

Titolo

The climatic role of atmospheric aerosol in the Arctic

Docente(i)

Luca Ferrero

Lingua

English

Breve descrizione

The role of atmospheric aerosols is significant to the Arctic warming and is _____

- the main aerosol sampling and monitoring systems, from direct to indirect _____
- the aerosol, optical properties and climatic effects in the Arctic
- the heating rate determination with respect to the effect of clouds and _____

- the overall feedbacks involving aerosol in the Arctic and the interaction ____

Evaluation: NO

CFU / Ore

1,5 CFU - 14 Hours (8h lecture - 6h laboratory training)

Periodo di erogazione

I semester
