DEGLI STUDI DI MILANO-BICOCCA

COURSE SYLLABUS

Environmental Risks Assessment of Chemicals (Curricular - Environment)

2223-94R-SCGA32

Titolo

Environmental Risks Assessment of Chemicals

Docente(i)

Antonio Finizio

Lingua

English

Breve descrizione

The concepts of ecological risk assessment endpoints, defining the problem, the conceptual model, and risk hypotheses

- Explore methods for measuring, estimating, and characterizing exposure and effects for deterministic and probabilistic assessments

- Discuss how data are applied in the decision-making process

- Demonstrate how to communicate risk findings in a professional setting

Evaluation: YES - discussion on the program topics

CFU / Ore

2 CFU - 16 Hours (Lecture)

Periodo di erogazione

II semester
