## SYLLABUS DEL CORSO

### Diagnostics

2223-4-H4102D028-H4102D104M

---

#### Aims

To provide the basic knowledge of the spectrum of neuroradiological techniques, correct indications for their prescription and basic knowledge for interpreting the results

#### Contents

Neuroradiology and imaging of normal brain and neurological disorders.

#### Detailed program

- Neuroradiological techniques
- Neuroradiological anatomy
- Neuroradiology of vascular diseases of the brain and spine
- Neuroradiology of neoplastic diseases of the brain
- Neuroradiology of infectious diseases
- Neuroradiology of neurodegenerative diseases

## **Prerequisites**

Basic knowledge of neuroanatomy

## **Teaching form**

Frontal lessons with discussion of clinical cases

## **Textbook and teaching resource**

**Diagnostic Imaging: Brain** Jhaveri, Miral D. et al, Elsevier Science Health Science; 4° ed, 2020

## **Semester**

second semester

## **Assessment method**

written exam with open questions

## **Office hours**

by email appointment

## **Sustainable Development Goals**
