

# UNIVERSITÀ DEGLI STUDI DI MILANO-BICOCCA

### SYLLABUS DEL CORSO

## **Dermatology**

2223-3-H4102D058-H4102D197M

#### **Aims**

The clerkship's aim is to provide the student with direct experience of managing patients with dermatological problems.

In particular, within the onco-haematological pathway, it is proposed to improve:

- 1. Understanding the clinical features and pathophysiology of cutaneous lymphomas
- 2. Understanding the clinical and histological features of basal cell and squamous cell carcinomas
- 3. Understanding drug-related dermatoses during the treatment of onco-haematologic malignancies
- 4. Understanding the importance of clinico-pathological correlations in the diagnosis of skin neoplasms

#### **Contents**

The student will work with the doctor-tutor during his or her working day in the dermatology department, in the first and second level outpatient departments or in the inpatient section.

In parallel, several clinical cases will be available on the online e-learning platform.

#### **Detailed program**

Each student is assigned, on a daily basis, to a specialist from a first or second level outpatient clinic (general dermatology, allergic dermatology, dermosurgery, psoriasis outpatient clinic, melanoma outpatient clinic, sexually transmitted diseases outpatient clinic, autoimmune diseases outpatient clinic, photodinamic therapy) or in the inpatient section. During the period of attendance, the student will attend the different outpatient clinics in order to get the fullest possible overview of the dermatological discipline.

In parallel, several clinical cases will be available on the online e-learning platform.

In particular, within the onco-haematology pathway, it is proposed to improve skills:

- 1. Clinical and histological pictures of different forms of cutaneous lymphomas
- 2. Clinical and histological pictures of basal cell and squamous cell carcinomas
- 3. Clinical and histological pictures of the most common drug-related dermatoses
- 4. When, where and how to perform and analyze a skin biopsy

#### **Prerequisites**

Basic Clinical Skills course

#### **Teaching form**

The student will support the dermatologist-tutor during consultations in the clinical, diagnostic and therapeutic process. Supervised practical observation activities introduced and followed by briefings and debriefings by hospital dermatology tutors

### Textbook and teaching resource

- Clinical cases on e-learning platform
- Wolf / Johnson / Saavedra / Roh. Fitzpatrick's Color Atlas and Synopsis of Clinical Dermatology. McGraw-Hill, VIII ed, 2017.
- Cainelli / Giannetti / Rebora. Manuale di Dermatologia Medica e Chirurgica, McGraw-Hill, VI ed, 2016 (Italian language).

#### **Semester**

Third year, second semester

#### Assessment method

Direct verification of the acquisition of semeiological skills, clinical-diagnostic-therapeutic rationale and student-patient interaction skills.

#### Office hours

By appointment to be arranged with the professor by e-mail
