Learning objectives

Knowledge and understanding of essential dynamics of the firm and the foundations of its legal treatment. Understanding and analyzing, also on the basis of cases and case-law, of the main contents and logics of the law of business organizations. Knowledge and application of the methodologies and tools of problem solving in the subject matter.

Contents

In Module B we will address the law of cooperatives and elaborate some issues connected to the partnerships and companies, such as structural changes, business groups and listed companies.

Detailed program

- Cooperatives.
- Structural changes.
- Business groups.
- Listed companies.

Prerequisites

Essential elements of private law.

Teaching methods

Lectures and problem-based discussions. Participation on a voluntary basis to a moot court competition.

Assessment methods

Oral exam (questions/conversation on the topic covered in class).

The whole exam (15 CFU) can be taken in two different ways.

i) Attending students of the second year can take a partial exam at the end of the Module A and before the start of Module B. After completing the Module A exam, the Module B exam can be taken only at the end of Module B classes.

ii) All students can take the whole exam (relating both Module A and Module B) at the end of Module B classes.
