COURSE SYLLABUS

Labour Law - M-Z

2223-2-A5810128-MZ

Learning objectives

The purpose of the course is to provide the conceptual and methodological tools necessary to understand the set of rules of labor law. The course aims to promote the analysis of the knowledge acquired, to apply it in the solution of concrete cases, also favoring a critical approach to the problematic profiles of the subject matter of the course and the future exercise of the professional activity.

Contents

The exam program includes the study of the main issues relating to labor law.

Detailed program

The exam program includes the sources of labor law, subordinate and self-employed work, the type of employment relationships (fixed-term contract, part-time contract, special contracts, etc.), health and safety at work, the development and the causes suspension of the employment relationship, the anti-discrimination right, individual and collective dismissal, the right to union freedom and collective self-protection (development and legal framework of union representation, collective bargaining and the right to strike).

Prerequisites

No prerequisites.

Teaching methods

Lessons will take place in person.

Assessment methods

Written test, according to methods that will be communicated by the Professor at the beginning of the course.
