SYLLABUS DEL CORSO

Macroeconomia - 1

2223-2-E3301M193-E3301M195M-T1

Learning area

Learning objectives

The course aims at providing the knowledge of core macroeconomic models, useful for the understanding of economic systems in closed and open economy, in the short, long and very long term. The study of theoretical models is coupled by their application for the understanding of macroeconomic dynamics in Italy, in order to enable students to deal with the core issues characterizing modern economic systems, and to understand the main economic concepts, also through the use of models and their empirical implementation.

Contents

The course deals with core macroeconomic issues at an introductory level, equipping students within the core theoretical tools for the understanding of the working of the closed and open economy in the short, long and very long run, are provided. Tools are then employed for the understanding of macroeconomic dynamics in Italy and Europe.
