Prerequisites

To have passed the Business Administration exam.

Teaching methods

The lessons will be in-person and based on the reference book.

The lessons are delivered with the support of slides. Slides cannot be considered as an alternative to the text.

Assessment methods

The written tests will take place in the didactic laboratories (pay attention to the notices for any exam rounds and laboratory variations)

The vote will be expressed out of thirty

The non-attending exam is written with the possibility of oral integration according to the exam dates for the course

Students who do not attend the test can carry out and deliver the exercises according to the deadlines published in the appropriate section.

The score of the exercises will be added to the score of the test.

The attending test is divided into two written tests (Intermediate and final) with the possibility of oral integration after having taken the final exam, according to the exam dates of the course.

The mid-term test which will take place in November, according to the dates set out in the teaching calendar, while the second test will take place on the first exam in January with the test for non-students attending.

The mid-term exam focuses on the program carried out up to chapter 5

The final exam focuses on the program carried out for the remaining lessons

The final grade for attending students is given by the average of the marks of the two tests, plus any points of the group work

The final grade for NON ATTENDING AND ATTENDING students can be integrated orally with questions on the whole program, in case of positive the grade will be increased, in case of negative the mark of the written test.
