DEGLI STUDI DI MILANO-BICOCCA

SYLLABUS DEL CORSO

Anatomia degli Apparati Cardio-Circolatorio e Respiratorio

2223-2-I0201D138-I0201D212M

Aims

The course aims to provide students the knowledges of the cardiopulmonary apparatus

Contents

At the end of the Course, the student should know fundamental notions about the anatomy of cardiovascular, pulmonary, gastrointestinal and urinary systems. Moreover, students will understand the usefulness of such information for the definition of a correct and tailored rehabilitation.

Detailed program

The student should know how to describe the anatomo-physiology of these organs:

Heart

Lungs

Esophagus

Stomach

Duodenum

Small intestine

Large intestine

Liver and biliary tree

Pancreas

Kidneys and Bladder

Prerequisites

Objectives of the first year courses

Teaching form

Frontal didactic activities.

Lessons will be provided in presence, subject to any ministerial changes following the COVID pandemic situation

Textbook and teaching resource

Slides.

Semester

Second year - Second semester

Assessment method

Multiple choice test including 5 questions with only one correct answer

In the Covid-19 pandemics, written exams will be carried out on the ESAMI-ONLINE platform, with a proctoring system (RESPONDUS).
