

SYLLABUS DEL CORSO

Apparato Cardio-Circolatorio

2223-2-I0201D138-I0201D213M

Aims

To know how to recognize the clinical symptomatology of cardiovascular diseases as well the basic principle of their diagnosis and therapies.

Contents

Pathophysiology and Clinical features of the following cardiovascular diseases:

- Chronic heart failure.
- Chronic Coronary Syndrome.
- Essential and secondary arterial hypertension.
- Atrial fibrillation.
- Dyslipidemia.
- Valvulopathy.
- Basic concept of electrocardiography and echocardiography.

Detailed program

- Chronic heart failure: pathophysiology, epidemiological mechanisms, types of decompensation (systolic and / or diastolic dysfunction). Diagnostic criteria of heart failure. Role of rehabilitation.
- Chronic coronary syndromes: clinical presentation of acute myocardial infarction and chronic coronary syndromes. Clinical and instrumental diagnosis. Complications of myocardial infarction. Secondary prevention of coronary events. Coronary revascularization
- Atrial fibrillation: diagnosis. Risk factors and causes, epidemiology. Clinical manifestations. Clinical and

laboratory diagnostic criteria.

- Arterial Hypertension: definition, diagnosis, epidemiology. Secondary causes of hypertension. Cardiovascular complications of hypertension. Prevention of hypertension. Role of lifestyle.
- Dislipidemia: definition, diagnosis, epidemiology. Target and therapies.
- Valvulopathy: aortic stenosis. Aortic regurgitation. Mitralic stenosis. Mitralic regurgitation.
- EKG: basic interpretation of normal and pathological one.
- Echocardiography: kinesis and segmentation of left ventricle. Valvulopathy.

Prerequisites

Basic skills of cardiovascular physiopathology, cardiovascular pathology and cardiovascular semeiotics.

Teaching form

Lessons in attendance.

Textbook and teaching resource

International guidelines concerning major cardiovascular diseases.

Semester

second semester (March 2023).

Assessment method

Exam in attendance.

Office hours

To be agreed with students, by e-mail contact.

Sustainable Development Goals

GOOD HEALTH AND WELL-BEING
