

UNIVERSITÀ
DEGLI STUDI DI MILANO-BICOCCA

COURSE SYLLABUS

Neurophysiology

2223-1-I0201D131-I0201D235M

Aims

Know and understand the role of the autonomic nervous system
the physiology of emotions

Contents

Autonomic nervous system anatomy
Neurophysiology of the autonomic nervous system

Detailed program

hypothalamus
visceral sensitivity
temperature, hydro-salt balance, sense of thirst, sexual function, circadian rhythms

Prerequisites

general notions

Teaching form

frontal lessons

Textbook and teaching resource

neurofisiopatologia in riabilitazione
Massimo Frascarelli
Ed Minerva Medica

Semester

II°

Assessment method

written test

Office hours

by appointment

Sustainable Development Goals

GOOD HEALTH AND WELL-BEING
