COURSE SYLLABUS

Developmental Psychology - 2

2223-1-E2401P010-T2

Learning area

KNOWLEDGE AND SKILLS USEFUL TO UNDERSTAND, PROMOTE AND CHANGE INDIVIDUAL PSYCHOLOGICAL FUNCTIONING

Learning objectives

Knowledge and understanding

Aims of the class are:

- To provide students with basic knowledge about theories of psychological development.
- To illustrate changes occurring in psychological functions and behaviour from birth to adolescence in the areas of perceptual, cognitive, emotional and social development.
- To introduce students to the most critical issues related to the explanation of developmental change and the mechanisms behind those changes.

Applying knowledge and understanding

- Understanding the challenge of explaining psychological development.
- Gain perspective on biological, physical, cognitive, and social-emotional changes across the lifespan.
- Developing critical thinking about historical and current arguments in the field

Contents
