SYLLABUS DEL CORSO

Lettura e Interpretazione dell'E.C.G.

2223-2-I0101D107

Aims

At the end of the course student will be able to achieve method and use of algorithm for a recognition of rapid pace

Contents

ECG basic notions and approach to analyze normal pace; diagnostic algorithm for rapid analysis and recognition of pace

Detailed program

course presentation

lecture on the content provided

debate

group exercises about electrocardiogram reading

debate and course conclusion

Prerequisites

2 nd and 3?? year Nurse Student

Teaching form

Lecture, group exercises about electrocardiogram

Textbook and teaching resource

Semester

second semester

Assessment method

Office hours

Sustainable Development Goals

GOOD HEALTH AND WELL-BEING
