UNIVERSITÀ
DEGLI STUDI DI MILANO-BICOCCA

SYLLABUS DEL CORSO

Chimica Ambientale

2223-1-F7501Q036

Title

Environmental Chemistry

Teacher(s)

Prof.ssa Marina Lasagni
Prof. Ezio Bolzacchini

Language

Italian

Short description

The student gains chemical knowledge about the nature of chemical reactions that characterize each segment, the nature of the substances present and their reactivity and persistence in the environment. Furthermore, the student acquires knowledge of the chemical and physical parameters useful to evaluate the interaction and the partition between the different environments as well as the transport processes.

CFU / Hours

96 hours, 12 CFU

Teaching period

Annual
