

UNIVERSITÀ
DEGLI STUDI DI MILANO-BICOCCA

COURSE SYLLABUS

Seminars in Economics and Management

2223-2-F5602M018

Learning objectives

The module will be closely interlinked with “Microeconomics of Development”: the lectures will provide opportunities to discuss and put into practice (through actual data analysis performed in Stata) concepts and examples discussed in that module.

Contents

Detailed program

Prerequisites

Students are expected to attend the module “Microeconomics of Development”

Teaching methods

Assessment methods

Assessment will be based on a take-home assignment. Students will be asked to read, discuss, and analyze the data from a published paper.

Textbooks and Reading Materials

Semester

Teaching language

English
