COURSE SYLLABUS

Pedagogy of Deviance and Marginalization

2223-2-F8501R010

Course title

Theatre in prison

Topics and course structure

The course, as a first step, aims to provide the theoretical elements of pedagogical analysis of the phenomena of deviance, reconstructing their genealogy. The course will examine the theme of psychiatric power in the areas of educational intervention where it produces a widespread tendency to use an excess of diagnosis that distinguishes an effect of medicalization of normality.

In a second step, we will discuss the practical aspects that characterize interventions in the context of deviance and marginalization. Moreover, the course using a didactic methodology active and participatory, will allow the testing of an archeological approach of pedagogical research and consultancy for the educational and social professional quality.

A further purpose of the course is to experiment a pedagogical consultant position to analyze and penetrate the problems that concern aspects of deviance in educational contexts.

The main argument of the second part (monographic) will be dedicated to the theater in prison.
