# **SYLLABUS DEL CORSO**

## **Economia Aziendale - 1**

2223-1-E1803M046-T1

## Learning objectives

The course of *Economia aziendale* addresses key issues related to business administration and management. Students should gain a better understanding of the creation of value and the processes through which the business (*Azienda*) is managed in several kinds of economic institutions: families, firms, public administrations and not-for-profit organizations.

The course provide students with both conceptual frameworks and examples to identifying, analyzing andunderstanding the key structural elements of *Azienda*. Students are asked to actively participate in the learning process.
