COURSE SYLLABUS

Modern Econometrics for management studies

2223-106R-ME

Titolo

Modern Econometrics for management studies

Docente(i)

Simona Comi / Laura Pagani / Gianna Monti / Matteo Borrotti (UNIMIB)

Lingua

English

Breve descrizione

Program

- linear models
- Regression with binary dependent variable
- Regression with panel data

- Dimension reduction
- Supervised learning

Objectives:

The course incorporates real-world questions and data, and methods that are immediately relevant to the applications. At the end of the course students will be able to understand the basic properties of the econometric models and methods presented and apply them in empirical research. Students will also be able to critically read empirical economic research employing methods covered in the course, to identify their potential methodological problems, to compare alternative econometric model specifications and to assess the adequacy of empirical results.

Evaluation: Written assignment

CFU / Ore

6 CFU - 48 hours

Periodo di erogazione

I year, I semester
