SYLLABUS DEL CORSO

Writing of scientific papers

2223-DOTT-MOD25

Title

Writing of Scientific papers

Teacher(s)

Marco Vanoni

Language

English

Short description

Objectives

How to read a scientific paper

- The “write first-do-the-experiments-later” approach
- How to structure a scientific paper
- Hands-on and practical exercises: students will be asked to perform some tasks. By way of example, they will write an abstract, a cover letter or an introduction of a paper according

to some specific suggestions and the material prepared
by a few randomly selected students - will be read
and commented
If possible, a lecture will be given by an editor of a journal of the Nature
group

Target audience

The proposal is addressed to students of the science and medicine area.
Most examples will focus on biology, biochemistry, systems biology and
related fields.
The course is not recommended for students of humanities

Participants

Min 10 Max 50

Notes

The course will be programmed through lessons in presence. Recordings of
the lessons will be made available as well
