DEGLI STUDI DI MILANO-BICOCCA

## SYLLABUS DEL CORSO

### Writing of scientific papers

2223-DOTT-MOD25

---

#### Title

Writing of Scientific papers

#### Teacher(s)

Marco Vanoni

#### Language

English

#### Short description

##### Objectives

How to read a scientific paper

- The “write first-do-the-experiments-later” approach
- How to structure a scientific paper
- Hands-on and practical exercises: students will be asked to perform some tasks. By way of example, they will write an abstract, a cover letter or an introduction of a paper according

to some specific suggestions and the material prepared  
by a few randomly selected students - will be read  
and commented  
If possible, a lecture will be given by an editor of a journal of the Nature  
group

**Target audience**

The proposal is addressed to students of the science and medicine area.  
Most examples will focus on biology, biochemistry, systems biology and  
related fields.  
The course is not recommended for students of humanities
